SHATHA AL JUBAIL

— International for Total Laboratory Solution Experts —

Leadership Message

At Shatha Al-Jubail International Trading Co. (SJI), we understand that laboratories are the foundation of industrial excellence, quality assurance, regulatory compliance, and innovation.

As the Kingdom of Saudi Arabia advances under Vision 2030 — focusing on industrial diversification, localization, quality infrastructure, and sustainable economic growth — laboratories play a critical role in maintaining global standards and operational reliability.

SJI was established with a clear purpose:

To provide complete laboratory solutions backed by technical expertise, structured service systems, and long-term strategic partnerships.

Through experienced Saudi-based engineers, strong international manufacturer partnerships, and ISO-aligned service practices, we proudly support oil & gas, petrochemical, pharmaceutical, environmental, and research sectors across the Kingdom of Saudi Arabia.

We are committed to contributing to Saudi Arabia's industrial transformation by strengthening laboratory infrastructure, enhancing compliance, and delivering reliable, performance-driven solutions.

Management Team

Shatha Al-Jubail International Co.

VISION

To be the “Leader in Sales and Services of Multi-Vendor Laboratory Equipments, Lab Chemicals, Spare Parts, Consumables & Industrial Material Requirements”.

MISSION STATEMENT

To become a leading Saudi-based multi-vendor laboratory solutions provider, contributing to Vision 2030 by strengthening industrial quality infrastructure, advancing technical excellence, and supporting sustainable economic development across the kingdom of Saudi Arabia.

GOALS and OBJECTIVES

SJI is committed to provide high quality support on services like Troubleshooting, Repair, breakdown maintenance, preventive maintenance and Calibration services.

We are committed to:

- Supporting localization of laboratory technical services
- Providing ISO-aligned calibration coordination and traceability
- Delivering structured multi-vendor maintenance solutions
- Supplying globally recognized laboratory technologies
- Executing turnkey laboratory projects aligned with industry standards
- Building long-term partnerships based on integrity and technical competence

Through continuous improvement and skilled technical support, **SJI** contributes to the advancement of laboratory standards and industrial excellence in Saudi Arabia.

Company Overview

Shatha Al-Jubail International Co. (SJI) is a Saudi-based laboratory solutions provider headquartered in Al-Jubail, Eastern Province — one of the Kingdom's most strategic industrial regions.

Aligned with Saudi **Vision 2030** and the National Industrial Development and Logistics Program (NIDLP), SJI supports industrial growth by strengthening laboratory capabilities, improving measurement accuracy, and ensuring compliance with international standards.

With over 15 years of industry experience in Kingdom of Saudi Arabia , SJI operates as a **Total Laboratory Solutions Partner**, delivering integrated technical services and advanced equipment solutions.

Our structured approach helps organizations:

- Reduce equipment downtime
- Maintain audit readiness
- Improve operational efficiency
- Ensure traceable and accurate measurements
- Strengthen compliance frameworks

We combine global technology with local expertise to support the Kingdom's localization objectives and industrial sustainability goals.

Industries we serve

QA/QC
Laboratories

R &D
Laboratories

Oil, gas & energy
laboratories

Petrochemical and
polymer laboratories

Pharmaceutical
laboratories

Environmental
and food testing
laboratories

Academic and
research
laboratories

Construction and
materials testing
laboratories

SJI delivers integrated laboratory service and technical support solutions designed to ensure operational reliability, measurement accuracy, and regulatory compliance across industrial and research laboratories throughout the Kingdom of Saudi Arabia.

Multi-Vendor Laboratory Equipment Services

We provide centralized maintenance and technical support for laboratory equipment from multiple international manufacturers. Our multi-vendor expertise enables clients to streamline service management under one qualified and reliable partner.

Service models include:

- Annual maintenance contract (AMC).
- Comprehensive maintenance contract (CMC)
- On call breakdown support
- Preventative maintenance (PM) & calibration services.
- Inspection & repair services if no contract is required.

Scope of Our Services:

1. Resident Engineer Service
 - To provide immediate support to the lab.
 - Engineer sits in customer lab maintaining their timing.
2. On Call Services
 - To attend breakdown on-call within the offered
3. Inspection of Equipment
 - To assess the working condition
 - To diagnose the fault

Corrective Maintenance (Troubleshooting & Repair) Services

1. Unlimited number of Breakdown Maintenance Services for each Equipment.
2. Troubleshooting & repair within one week if no parts required.
3. If parts required, supply at additional cost.
4. If SJI fails to repair within agreed time, repair will be arranged within 1–2 weeks at company cost.

Preventive Maintenance (PM) Service

PM of Equipment performed as per Manufacturer recommendations and Standard PM Protocol to extend equipment life and minimize breakdown time.

Calibration Services (ISO 17025 Accredited)

1. Calibration using NIST (USA) & NPL (UK) traceable standards.
2. Conducted as per ISO 17025 requirements.
3. Traceable to National Institute of Standards and Technology (NIST-USA), National Physical Laboratory (NPL-UK) and other international standards.
4. Calibration certificate issued upon successful completion.

Performance Tests

Performance testing to demonstrate full functionality after corrective maintenance, PM, and calibration services.

PM Consumables

List of PM consumables provided after each Preventive Maintenance.

Spare Parts

Spare parts list provided after PM.

Parts can be supplied via Purchase Order or on cost-plus basis (subject to approval).

Repair Parts

Repair parts list provided after inspection.
Supplied through PO or cost-plus basis (subject to approval).

Documentation

Maintenance and calibration certification as per ISO 17025 Lab Accreditation requirements.

Turnkey Laboratory Solutions

We provide end-to-end laboratory development solutions including:

- Laboratory layout planning
- Equipment supply and installation
- Laboratory furniture and safety systems
- Gas distribution and waste management systems
- Commissioning and technical handover

Our turnkey solutions ensure fully integrated, safe, and operational laboratory environments.

Our Products

Laboratory Equipment Sales & Supply

In addition to technical services, SJI supplies a comprehensive portfolio of laboratory equipment and industrial testing systems from internationally recognized manufacturers.

Our product portfolio supports polymer, petrochemical, analytical, safety, pharmaceutical, and research laboratories with advanced and compliant solutions.

Why Choose SJI

We combine global standards with local execution excellence.

- ✓ Saudi-based technical service provider
- ✓ 15+ years of regional experience
- ✓ Alignment with Vision 2030 industrial objectives
- ✓ Multi-vendor lifecycle expertise
- ✓ ISO-aligned calibration coordination
- ✓ Strong international technology partnerships
- ✓ Structured documentation and audit readiness
- ✓ Commitment to localization and sustainable growth
